

Mermaid and Pirate Hug-a-Page Bookmark

1. Cut out a bottom and a top for your bookmark. You can mix and match to make mermaids, pirates, or anything in-between!
2. Carefully cut along the inner arms so there is a flap to "hug" the book page. Glue the top to the bottom, leaving that flap unglued.
3. Time to decorate! Use markers, colored pencils, stickers, or anything else you can think of to decorate your new bookmark. Make sure everything is dry before you use it to mark your page.
