

# Florida Girls & Boys & Their Toys

Toys are for girls and boys—right? Actually, we're never too old to appreciate them! In fact, as we get older, it's hard to erase the excitement we felt from owning a favorite toy.

Though toys have changed over time—plastics have replaced metals and corners aren't so sharp—they still occupy a very important place in our lives.

Journey back through time and recapture the "magical" way that children play with their toys.
